"The information and help provided by Immunodeficiency UK is extremely professional and answers all your questions. Their website has been invaluable in helping me and my family understand what I am living with and how my quality of life will improve in the future."

Mitch, newly diagnosed with common variable immune deficiency (CVID)

"Immunodeficiency UK has given us the opportunity to connect with other families affected by the same immune deficiency as our son. We feel like we're not left to struggle alone."

Rebecca, mother to a child with complement deficiency

About us

Immunodeficiency UK is the national charity dedicated to supporting individuals and families affected by a primary or secondary immunodeficiency.

We provide practical, emotional and financial support to those living with weak immune systems, and their families. We also advocate for patients' rights and needs.

We're here to empower you with the knowledge and support you need to manage your condition with confidence, while ensuring that your health needs are understood and prioritised by those involved in the policy and delivery of healthcare.

Visit our website for access to:

- trusted medical information
- benefits guidance
- wellbeing and mental health advice
- personal stories from the community
- everyday tips for living with an immunodeficiency.

"When Daniel was diagnosed, Great Ormond Street Hospital advised us to go straight to Immunodeficiency UK's website as it's the most reliable source of information. It was great to be able to use the information as a guide for the path we were about to walk."

Daniel's mother, Eleanor

"Many thanks for your response to my questions about selective IgM deficiency. It's useful to understand what the usual approach to treatment and management is."

Matilda, who was seeking information on her condition

"Thank you so much for your speedy response. I've used your website to find out about my son's condition since his diagnosis last year. It's such a relief to be able to understand what is going on with his condition. You have been a great help."

Jane, mother to a child with APCED
